

# VODIRALL ECO

VODICHEM

## RESINOUS ALUMINIUM IN AQUEOUS DISPERSION

### PRODUCT DESCRIPTION

**VODIRALL ECO** is a protective brilliant silver-coloured paint new for its formula because it is completely ecological and not inflammable.

Thanks to these features, it is easy to store, also in big quantities.

Besides, for the persons who use this product, quartely medical visits are not necessary.

### PRIMARY USES

**VODIRALL ECO** can be applied on every type of dried surface but the ideal application is as protective covering of prefabricated bituminous membranes on which it will create a silver coloured film.

This film will be homogeneous and without stripes.

The film obtained with **VODIRALL ECO** is sufficiently elastic and able to follow the "movements" of the bituminous membrane, avoiding the big problem of the "craquelé".

### INSTRUCTIONS FOR USE

**VODIRALL ECO** is ready for the use. Energically **stir the product** in its can before its application.

The application may be done by means of a brush, a roller or spraying it.
